

Honey Bear Keychain

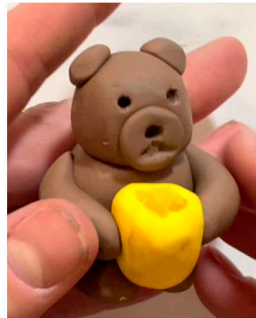

12. Finally, it's time to mix up some yellow clay and make a honey pot for the bear to hold. Make a small (marble sized) ball of clay and then press your finger or a dowel into it to make it look like a pot.

13. Place the honey pot between the bear's hands and press firmly so it sticks.

14. Feel free to add other details like a cute red heart on the bear's back if you want.

15. ADULT SUPERVISION ONLY: bake using the instructions on the packet.

16. Once cooled, screw the keychain into the bear's head. Adults may need to do this step since it can be difficult.

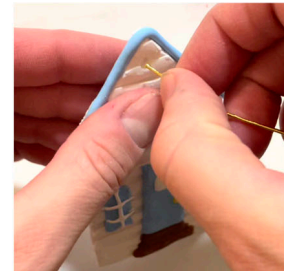

Clay House Hanger

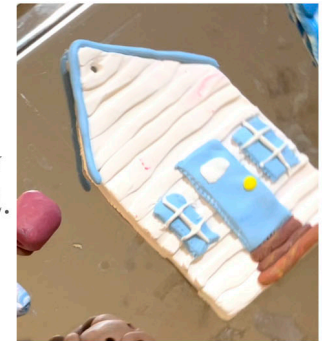

9. Now it's time to learn how to make BROWN with just red, yellow, and blue clay! What do we do? Mix red, yellow, and blue clay together! Then, roll the clay into more "snakes" and use it to make stairs under the door. Flatten the "snakes" with the dowel.

10. Have an adult help you bake your house in the oven using the instructions on the clay package. DO NOT DO THIS PART ALONE.

11. Once your clay is done baking and is fully cooled, tie the shorter of the two gold strings through the hole. This way you can hang the house as a doorknob decoration.
